

Tec de Monterrey among the world's Top 30 for graduate employability

According to rankings from international firm [Quacquarelli Symonds \(QS\)](#), [Tec de Monterrey](#) has climbed **14 places** to reach **26th in the world** for **graduate employability**.

These rankings include **undergraduate** and **graduate alumni** from the best universities around the world **that are most sought after by employers**.

The [Graduate Employability Rankings \(GER\) 2022](#) have ranked the Tec as the **#1 university in Latin America**, and as **#1 in Mexico** for the sixth year running.

Among **private universities**, the institution ranked **#11 in the world**, climbing 5 places in comparison to **last year's** rankings.

This year, **786 universities** from **78 countries** were evaluated, of which 679 were ranked. **12 universities** from **Mexico** were included.

Biggest jump in 3 years

These rankings see the Tec **climb** the **highest number of places** in the last 3 years, **14 places**, which amounts to **36** since 2018.

[David Garza](#), Rector and Executive President of Tec, highlighted that the **Tec community** is **proud** that its graduates are among **the most sought after by employers**, not just in Mexico but around the world.

*“In such a rapidly changing world, we strive for our students to develop the **necessary skills** to be **successful people** in all areas of their lives,”* said Garza.

Garza said that the Tec not only encourages its students to **aspire to greatness**, but also to become transformational leaders who **create value around them**.

*“These results motivate us to reaffirm our commitment to **training, research, and community engagement**, and therefore continue to contribute to the **development of society**,”* he added.

“In such a rapidly changing world, we strive for our students to develop the necessary skills to be successful people in all areas of their lives.” - David Garza.

[Juan Pablo Murra](#), Rector of Undergraduate and Graduate Studies, said that the pandemic had led to reinforcement of support for recent graduates and accompanying them in their **transition to working life**.

*“We recently **inaugurated Launching Pad**, an initiative to enhance **employability** through **mentoring**, supporting and improving **business** ideas, facilitating **specialization**, and fostering **collaborative networks** within our community,”* said Murra.

*“We offer courses that help them to consolidate and perfect their **skills** and **abilities**, or to develop new ones that complement their training,”* he said.

The indicators for measuring these employability rankings

This year, responses from almost **75,000 employers** and **40,000 graduates** with international influence were evaluated.

The [methodology](#) used for developing this ranking considers **5 criteria** related to graduate employability:

- Partnerships with Employers (25%)

The Tec ranks **92nd place** for this metric, improving by more than 108 places compared to last year.

- Employer-Student Connections (10%)

The Tec is in **56th place for this metric**. This indicator involves the presence of and contact with employers.

- Employer Reputation (30%)

The Institution has risen 8 places for this metric, ranking **47th in the world**.

- Graduate Employment Rate (10%)

Tec de Monterrey ranks **44th place in the world** for this metric. This metric involves the proportion of graduates in full or part-time employment within 12 months of graduation.

- Alumni Outcomes (25%)

The institution reached **39th place globally for this metric**. This indicator analyzes the success of university graduates and their position as the most innovative, creative, entrepreneurial, or philanthropic individuals in the world.
