

# TecSalud renews partnership with Houston Methodist Hospital

Executives from [Tecnológico de Monterrey, TecSalud](#), and [Houston Methodist Hospital](#) have signed the **renewal** of the **collaboration agreement** so they can expand and strengthen their medical and health care services.

The medical institutions will work together on a range of medical leadership services through the **interdisciplinary cooperation**, including:

- **Developing** lines of service in **cardiology and neuroscience**
- **Guidelines** for creating a **nursing** center of excellence, and **medical and administrative leadership** training and **education** programs
- As well as sharing **best practices** in areas such as **quality metrics, medical services, and hospital operations**.

## Sharing knowledge and innovating clinical care processes

This agreement will allow **TecSalud** and **Houston Methodist Hospital** to share knowledge and experience, in order to create an **interdisciplinary exchange** across medical and health care fields.

*“Through this new partnership, we’re endorsing our commitment to a well-known institution in the field of modern medicine. This collaboration will allow us to strengthen the quality and safety of medical care within our hospitals.*

*“Additionally, we will be able to **innovate** in our clinical care processes as a result of the transfer of knowledge,”* said **David Garza**, rector and executive president of **Tec de Monterrey**.

***“This collaboration will allow us to strengthen the quality and safety of medical care within our hospitals.” - David Garza***

## Reinforcing research and innovation in medical and academic fields

**Dr. Guillermo Torre**, rector of **TecSalud** and vice president of **Research at Tec de Monterrey**, pointed out that this partnership will promote **indicators of quality** across the system.

*“This partnership will allow us to reinforce our position as one of the **most advanced health care systems in Mexico and Latin America**, with a dedicated focus on excellence in patient care.*

*“It will also allow us to continue undertaking the highest quality research, something which, at the end of the day, translates into **innovation** in all **medical and academic fields**,”* added **Dr. Torre**.

### **Signing the agreement in Houston, Texas**

The signing took place in Houston, Texas, and was also attended by **Sven Boes**, general director of **TecSalud Hospitals**, and **Cathy Easter**, president and CEO of Global Health Care at **Houston Methodist Hospital**.

Boes added that this partnership will expand TecSalud’s vision, while Easter highlighted that her institution is a **world leader** of excellence in **patient care, education, research, and medical innovation**.

TecSalud’s San José and Zambrano Hellion Hospitals signed an **agreement** with the global network of **Methodist International** hospitals in **2013**.

Houston Methodist Hospital has been ranked **number 1** in Texas and in Houston for 10 years consecutively by the prestigious **U.S. News & World Report** magazine.

In 2021, **Newsweek** magazine included Houston Methodist in the list of the 100 best hospitals in the world.
