

# Master's degrees, doctorates and courses you can study at the Tec

If you're looking **to further** your **professional development** this year, **Tec de Monterrey** offers several options to help you learn.

The **Tec** offers everything from **diplomas, certificates, seminars, and online courses** to **master's and MicroMasters degrees** and **doctorates**.

*"It's important we instill in everyone, **young people and adults alike**, the need to **keep learning new things and developing new skills**,"* said Jorge Blando, the Tec's Vice Rector of Further Education to CONECTA.

Here are just some of the courses available:

## **TYPES OF COURSES**

You can take **postgraduate** programs (specializations, master's degrees, and doctorates) and **further education** programs (workshops, diplomas, seminars, and certificates) in **two ways: on-site and online.**

### **1) On-site Postgraduate Courses:**

- ***School of Humanities and Education***
- ***School of Engineering and Sciences***
- ***School of Government and Public Transformation***
- ***School of Medicine and Health Sciences***
- ***EGADE Business School***

\*Select the On-site option when choosing Course Type.

### **2) Online Postgraduate Courses.**

### **3) On-site workshops, diplomas, seminars, and certificates.**

#### 4) Online workshops, diplomas, seminars, and certificates.

### COURSES, DIPLOMAS, SEMINARS, AND CERTIFICATES

The Tec has **142 further education** programs such as **courses, workshops, diplomas, seminars, and certificates**, with durations ranging from 16 to 192 hours.

Some of these programs cover areas such as **Management, Human Capital, Processes and Quality, Logistics and Supply Chains, Information Technology and Systems, and Pharmaceutical and Health Industry Management.**

Find out what's on offer [here](#). You can view courses according to **topic, program or type.**

### MICROMASTERS

The Tec has begun offering **MicroMasters** as a new, shorter, **more affordable**, and **flexible** postgraduate option.

Unlike a traditional **master's degree**, a **MicroMasters** has **six online courses known as MOOCs**, which have a **minimum duration** of approximately **20 hours**.

These programs correspond to approximately **25 percent of the total credits of a traditional master's degree.**

Through the **EGADE Business School**, the Tec offers "**Professional Skills: Negotiation and Leadership**" and "**Innovation and Entrepreneurship**".

## **MASTER'S DEGREES**

The Tec has **master's programs** to provide specialized tools and knowledge in different areas.

**Here are some** of the **master's** programs that the **Tec** offers:

### **1) On-site**
